Found Dead. Last Friday, a teamster found the dead body of a man lying by the roadside about twenty miles below Coyote Springs, south of Pahranagat Valley. He came on to DeLamar, some 60 miles and reported, when Deputy Sheriff Jake Johnson and District Attorney McNamee, accompanied by the teamster, returned to the place.

It was found to be the body of Frank Martindale who left here shortly after the last term of court. He was on his way to Arizona. He had two horses with him, both of which were found near.

The body was rapidly decomposing but a search revealed \$85.00 in money and a gold watch. The body was buried close to where it was found.

There were no signs of violence and the man evidently perished from the heat.

There will be some falling off in the number of names on our assessment roll this year. Over 14000 acres of land have been forfeited in Pioche and Panaca, the southern part of the Most of these entries are of small amounts, representing a good many individual names. The forfeitures occurred through the fact that the entries were made in the name of Kirby, of Los Angeles, as agent, and notices sent to him were not forwarded to the parties interested. and on nonpayment of interest at the State Land Office, the contracts ts became forfeited at once. There is a double loss; to the county on the one hand and to the State School Fund on the other.

Present indications are that the vote in Pioche this year will be less than 100, and the estimate placed on were approved and the following DeLamar is about 350. This will be a falling off of some 150 for the latter place over the election of '96 and the loss will not be due so much Local Messenger, \$80.00; H.
